

NSF *the world's only*
APPROVED
STACKER SLICERS

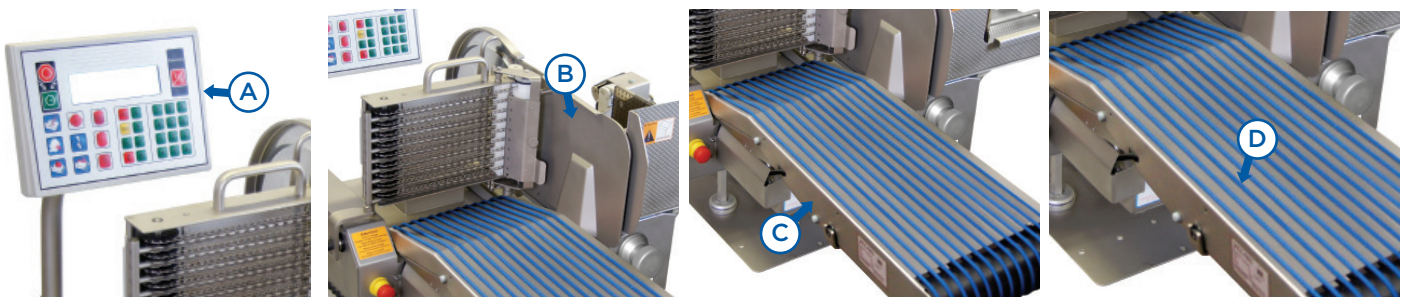

STANDARD FEATURES

- Patented design, including the industry's only dishwasher-safe chain frame design and liquid retention system, reduces clean-up time by up to 40%.
- Lower cost of ownership, including but not limited to, a single, varnished coated PC board with moisture control ventilation system.
- Stainless Steel Construction.
- German high quality manufacturing.
- Patented angled carriage design ensures accurate and consistent slicing of low profile products.
- Automatic stacking, shingling and depositing (VA2000 & VA4000AT).
- Automatic circular party tray output (VA4000AT).
- Programmable up to 99 programs to minimize output variations (VA4000AT only).
- Includes output conveyor and stainless steel stand (VA4000AT).

SAFETY FEATURES

- Patented chain frame system is easily cleaned; dishwasher-safe.
- Liquid capture system makes clean-up a breeze.
- Thickness blade locking mechanism ensures blade is not exposed when carriage is open during cleaning process.
- Auto shutoff button kills power in an instant.

A. Single, varnish coated PC board design with moisture prevention ventilation fan maximizes durability of slicer's "brains".

B. Single piece stainless steel construction provides long term durability; NSF certified design ensures daily sanitation is quick, easy and complete.

C. Patented chain frame and carriage design ensures slices are transferred correctly from the blade to the chain frame.

D. Exclusive spiked chain design provides up to 2x greater durability than standard design.

TECHNICAL SPECIFICATIONS

Overall Dimensions (with stand)

(L x W x H) 50.00 x 33.60 x 52.40 inches

Conveyor Belt

(L x W) 34.65 x 11.02 inches

Carriage

(L x W) 21.00 x 14.17 inches

Weight with Conveyor and Stand

286.60 lbs

Power

120V, single-phase

Blade

13", standard stainless steel

Slice Thickness

0-0.40 inches

Cutting Length

15.50 inches

Standard pusher plate spikes can be extended to accommodate greater product lengths

Maximum Cutting Width

10.04 inches

Cutting Height

7.68 inches

Cutting Speed

Speed of carriage is infinitely variable, about 25-55 strokes per minute
